

North County Coastal Group Executive Committee Candidate Statements

Sally Prendergast

Residence - Encinitas

Background - Strategic Marketing/Management.

Current Chair of North County Coastal Group

I have been a member of the Sierra club since 1997 but really became active in the North County Coastal Group, about 3 years ago when I volunteered for the

interim Planning Committee. In 2016 we officially re-launched the North County Coasters Group and I was elected for a two year term to serve on the Executive Committee Board. During these two years I have served as Chair. Over the last two years our ExCom has spent our time focused on endorsements for political candidates, conservation and development issues, and working with environmental partners on a variety of activities from planning the Climate March and beach cleanups to supporting legislation to prevent our open spaces from thoughtless sprawl and being lost forever. We have also hosted quarterly meetings that have featured speakers on a variety of topics from sea level rise to lagoon restoration. My entire life I have enjoyed and appreciated nature and have been an outdoor enthusiast. I feel deeply connected to our beautiful North County environment and I am passionate about it's preservation. In particular I am concerned with issues relating to climate change, preserving open spaces and conservation. Now more than ever I believe it is critical that The North County Coastal Group stays focused on the goal of building a vibrant and active group dedicated to preserving our beautiful North County region, growing our membership and connecting people to the outdoors.

Greg Wagner

"We won't have a society if we destroy the environment." –Margaret Mead

I am a long-term Sierra Club member and my passion is protecting the natural environment. I am an active backpacker and ardent environmentalist. I majored in Botany (plant taxonomy) and Geography (environmental science). I attended graduate school in Public Administration as was a White House intern reviewing budget proposals for Department of Energy programs. I practiced law in real estate, land use and zoning.

My interest in joining the Executive Committee is three-fold: 1) I want to work with local communities and the County to insure compliance with land use protections such as the County Open Space Preserves Maps, SOAR initiative, etc. 2) Promote programs that individuals and companies can implement to protect the environment such as low carbon manufacturing, organic farming and community-driven energy independence. 3) Outreach and education to raise awareness of the Sierra Club to potential members who are already involved in similar environmental organizations. I believe there are many opportunities to reach people who have a strong interest in the environment, but are not informed about the Sierra Club and its mission.

Alice Hammond

I have been a member of the Sierra Club for years to help in any way I can to preserve our magnificent wild animals and protect our natural environment. The current administration has made our environment a whole lot less safe and healthy. I would like to continue to serve as a member of the Executive Committee of the North County Coastal Group to lend my help in restoring our environment for our children and future generations.
